Subject: MDEP DO TAC meetings

Hello all;

We are glad to have your interest in the Technical Advisory Committee (TAC) for the MDEP review of marine Dissolved Oxygen (D.O.) criteria. You have been in touch with MDEP staff and have either confirmed your intent to participate or to designate someone in your stead. Please pass this on as needed.

Most importantly, we are asking for your presence for the first of three TAC meetings. Please put this on your calendar: **8:00 -12:00 noon on March 9th in Lakeville, MA.**

In preparation for that meeting, we would like to hold a brief introductory webinar on **March 6th from 2:00 to 3:00.**

During that webinar, we will discuss a project summary, a listing of TAC members and project staff, agenda and logistics for the March 9 meeting, and a chance for questions and answers. I don't think this will be a long meeting and we hope you can be present just to address the basics.

I will send out calendar invitations also.

Thanks very much for your interest!

Ben
